PROFILE

Security professional with specialized experience in Vulnerability Assessment and Penetration Testing, focusing on web application and API security assessments. Proficient in identifying OWASP Top 10 vulnerabilities and applying systematic manual testing methodologies. Equipped to deliver clear and actionable remediation strategies to strengthen an organization's security posture.

PROFESSIONAL EXPERIENCE

BXGC Private Limited | Associate Security Consultant

08/2025 – 05/2026 | New Delhi, India

- Conducted Web, API, Mobile (Android), and Network (External/Internal) Penetration Testing on client environments.
- Maintained the company's knowledge management system with updates on latest security trends, vulnerabilities, and industry standards such as OWASP and NIST.
- Authored and presented detailed security assessment reports to clients, outlining findings, risk ratings, and remediation recommendations.
- Collaborated with cross-functional teams to enhance the organization's overall security posture.

Decorpot Private Limited | Customer Support & Design

12/2024 – 07/2025 | Pune, India

Coordination

- Handled customer inquiries and provided end-to-end support throughout the interior design project lifecycle.
- Coordinated between design teams and clients to ensure project timelines, deliverables, and expectations were met.
- Assisted clients in understanding design concepts, material selections, and budget planning.
- Maintained detailed project records and followed up on pending actions to ensure smooth project execution.
- Resolved customer complaints and escalations efficiently, maintaining high satisfaction scores.

Nirog Street Private Limited | Relationship Manager

06/2023 – 11/2024 | Pune, India

- Managed and nurtured client relationships to ensure long-term satisfaction and retention.
- Acted as a primary point of contact between clients and internal teams to resolve queries and streamline communication.
- Identified client needs and coordinated with relevant departments to provide timely solutions.
- Maintained accurate client records and prepared regular reports on account status and relationship health.
- Contributed to business development by identifying upsell and cross-sell opportunities within existing accounts.

TECHNICAL SKILLS

Web Application Penetration Testing | API Penetration Testing | Network Penetration Testing |
Mobile Application Security Testing | Programming Languages (Python and Javascript) |
Security Frameworks & Compliance: OWASP Top 10 | NIST CSF | ISO 27001 (Awareness) |
HIPAA (Awareness) | AI Fundamentals

SECURITY TOOLS

Burp Suite | Acunetix | Netsparker | Qualys | Rapid7 | NMAP | Nessus | WireShark | OWASP ZAP | Fortify | MobSF | Postman | Metasploit

CERTIFICATES

Certified Red Team Operation Management

CRTOM by Red Team Leaders

Cyber Security Educator Professional

CCEP by Red Team Leaders

Certified Hacking Essentials

EC Council

Pre Security

Tryhackme

PROJECTS

HeaderAuditPro [↗](#)

Developed a tool to audit web applications for missing and misconfigured security headers.

JS-Endpoint-Hunter [↗](#)

Built a tool to extract hidden endpoints and sensitive data from JavaScript files.

Paramspider-Lite [↗](#)

Created an automated tool for parameter discovery and reflected XSS detection.

XSS-ScanBot [↗](#)

Developed an automation tool for reflected XSS payload injection and vulnerability detection.

EDUCATION

B.S.C. Computer Science | APS University Rewa (MP)

09/2020 – 05/2023 | Rewa, India

CONFERENCE ATTENDED

Nullcon International Security Conference

02/2025 | BITS Pilani, Goa

Security Conference (Attendee)

- Attended sessions on Web Application Security, Cloud Security, Bug Hunting, and Secure Coding Practices led by experienced professionals.
- Gained practical insights into vulnerabilities such as IDOR, XSS, Broken Authentication, and real-world cases involving 0-day vulnerabilities.
- Participated in open CTF-style activities to observe exploitation techniques and responsible disclosure workflows.
- Engaged with professionals from the cybersecurity community whose focus on knowledge sharing and contributing back to the industry left a strong impression.
- Applied key takeaways to strengthen my understanding of OWASP Top 10 and improve hands-on testing in lab environments.

OTHER ACTIVITIES

Solving CTF Challenges | Reading Blogs | Finding Bugs on registered Websites
